

JASON ADRIAN A. PLATINO

San Pablo City, Laguna, Philippines | 09368986003 | jasonplatino798@gmail.com

PROFESSIONAL SUMMARY

Results-driven Full-Stack Developer and IT Support professional with hands-on experience building production-grade systems using Flutter, Next.js, Express.js, and Flask. Developed and maintained institutional systems including an LMS, File Storage Platform, and IT Ticketing System. Skilled in backend APIs, relational databases, Linux environments, and DevOps workflows. Currently expanding into modern rapid-development technologies including WordPress, AI-powered web builders, and AI-assisted “vibe coding” platforms such as Hostinger Horizon to support faster product delivery and business-focused solutions.

TECHNICAL SKILLS

Programming & Frameworks: Flutter (Dart), Next.js, Express.js, Flask, REST APIs

Infrastructure & DevOps: Linux Administration, Proxmox VE, CI/CD Workflows, System Monitoring

Testing & QA: Playwright, Logs Analysis, Workflow Validation

Database & Cloud: Firebase (Firestore, Auth, Cloud Functions), Relational Databases

IT Support & Networking: Troubleshooting, Hardware/Software Support, Networking (NC II Certified)

Version Control: Git, GitHub, Branching & Collaboration Workflows

Emerging Technologies: WordPress Development, AI Web Builders, AI Automation, Hostinger Horizon

PROFESSIONAL EXPERIENCE

Full-Stack Web Developer — San Pablo Colleges IT Department

October 2025 – May 2026

- Developed and maintained a production-grade Learning Management System (LMS) and File Storage Platform using Next.js and Express.js.
- Architected local staging and virtualization environments using Proxmox VE and Linux virtual machines.
- Implemented CI/CD workflows for rapid deployment and automated testing.
- Integrated Playwright automated E2E testing for validating workflows and role permissions.
- Optimized backend APIs and relational data structures for institutional-scale performance and reliability.

Flutter Developer (OJT) — San Pablo Colleges IT Department

February 2025 – May 2025

- Developed a full-stack IT Ticketing System using Flutter and Express.js.
- Built authentication systems, ticket workflows, file uploads, and administrative features.
- Assisted with IT support tasks including troubleshooting, software installation, and networking.
- Collaborated with IT staff to align application workflows with operational requirements.

IT & Network Support Intern — Converge ICT Solutions Inc.

2018 – 2019

- Assisted with network setup, troubleshooting, and IT infrastructure maintenance.
- Supported cabling, equipment setup, and office technical operations.
- Gained hands-on experience in field support and network environments.

SELECTED PROJECTS

Learning Management System & File Storage Platform

- Built institutional systems with Next.js and Express.js including authentication, grading workflows, and centralized file management.

Student Budget Tracker (Flutter + Firebase)

- Developed a mobile expense-tracking app with analytics, summaries, and cloud synchronization.

AI Code Explainer App (Flutter + Gemini API)

- Created an AI-powered application that converts code screenshots into readable explanations for students and beginners.

EDUCATION & CERTIFICATIONS

Bachelor of Science in Information Technology

San Pablo Colleges — 2025

TESDA National Certificate II (NC II) in Computer Systems Servicing

TESDA — 2020

LANGUAGES

English, Tagalog
